### **“WWI Flying Ace and His Sopwith CANel”**

The WWI flying ace takes to the air once again with his precious cargo. Not facing the Red Baron this time, but a more insidious threat... hunger. Luckily, Snoopy will keep his energy stores up with a balanced meal complete with an assortment of tuna and pasta. Do not be fooled, the most nutritious items, including baked beans, sweet corn, and green beans, are hidden away from the enemy's greedy eyes. Hunger may take the WWI flying ace down, but he will never give up the fight.
