

Floors Plus Commercial | MAC Interior Design Inc. "Ode to a Lighthouse"

You stand tall and strong in times of need

A beacon

A signal of hope

A guiding light to welcome all

Our team wanted to build a really strong, sturdy structure after last year's near failure! What better than the iconic lighthouse? There are approximately 150 Lighthouses in Nova Scotia, but their futures are uncertain. Thankfully, through the care of local communities, who appreciate their heritage value, their symbolic and social meaning, many of these treasures will continue to stand. Through the care of our local communities, FEED NOVA SCOTIA can also continue. The power of community is boundless.

Team: Dawn MacLachlan (captain), Randy Lewis, Susan Conrad, Tracy Gibson, Dwayne Lipton

Thanks to our other team members: Francis Chisholm, Daniel Gibson, John Power.
